

GOVERNMENT ENGINEERING COLLEGE, VAISHALI

BADMINTON RULE BOOK FOR UMANG'26 – INSTITUTE LEVEL SPORTS EVENT

Simplified Rules of Badminton:

The Laws of Badminton and Competition Regulations in the GEC Vaishali provide the detail on every aspect of the game of badminton.

‡ Below is a brief overview – simplified rules: -

ELIGIBILITY AND PARTICIPATION:

***IT WILL BE A TEAM GAME & TEAM SHOULD BE FORMED DEPARTMENT WISE**

PARTICIPATION OF PLAYER:-

- 1.All the student of GEC Vaishali are eligible to participate.
- 2.All players must be recorded on the game sheet before they are allowed to participate.

Suggestion regarding making team for participants:-

***A TEAM CAN HAVE TOTAL OF 4 PLAYERS:- GAME**

FORMAT

| 2 SINGLES

* BOYS & GIRLS

| 1 DOUBLES

*BOYS & GIRLS

NOTE :

There is no limit on the number of teams from the same department. If more than one team is formed from a single department, initial matches will be Played among them. The best team from the department will then play against teams from other Departments

WINNER SELECTION:-

***TEAM WITH MAXIMUM WINS**

START OF PLAY:-

1. Before starting the game, the opponent will toss a coin in the presence of umpire with the winner choosing:

(a) to serve first/receive first, or

(b) the side of the court

2. In subsequent games, the winning side choose the side of the court.

SCORING SYSTEM:-

1. All preliminary round will consist of 1 game of 21 points (games cap at 30). Each game starts at 0-0.

2. Every time there is a point scored: -

- (a) A rally is won when a shuttle is hit over net and onto the floor of the opponent's court.
- (b) A rally is lost if the shuttle is hit into the net, or over the net but outside of the opponent's court. A rally is also lost if the shuttle touches the player's clothing or body, or if it is hit before it crosses over the net.

3.The side winning a rally adds a point of its score.

4.At 20 all, the side which gains a 2-point lead first, wins that game.

5.At 29 all, the side scoring the 30th point, wins that game.

6.The side winning a game serves first in the game.

SERVING:

- 1.The first serve of the game is always made from the right side of the court to the opposite diagonal side. Only the player standing in the proper service court may return the serve.
- 2.The server must obey laws designed to force underhand delivery of the serve, and the receiver must stand still until the service is struck.
- 3.Following the serve, players may move anywhere on their side of the net.
- 4.A player continues to serve (alternating service courts) as long as a player scores points.
- 5.The service passes consecutively to the players as shown in the diagram.
- 6.When the score is even, the server serves from the right service court. When it is odd, the server serves from the left court.
- 7.If the serving side wins a rally, the serving side scores a point and the same server serves again from the alternate service court.
- 8.If the receiving side wins a rally, the receiving side scores a point. The receiving side becomes the new serving side
- 9.The players do not change their respective service courts until they win a point while their side is serving.
10. If the server completely misses the shuttle on the serve the server may re- serve.

11. A serve may not be delivered until the receiver is ready. If the receiver attempts to return the serve, the receiver is to have been considered ready.

12. During the serve, it is a fault if:

- (a) The shuttle is contacted above the server's waist or the racket head is above any part of the hand.
- (b) The shuttle does not fall into the diagonally opposite service court.
- (c) Some part of both feet of the server and receiver are not in contact with the appropriate court until the shuttle is contacted by the server. Touching a line with the foot is considered out of the court. *If players commit an error in the service court, the error is corrected when the mistake is discovered.

Interval and Change of Ends:

1. When the leading score reaches 11 points, players have a 60 second interval.

2. A 2-minute interval between each game is allowed.

GENERALPLAY:

1. Shuttle falling on the line is good. Use outside lines all the way around, except for serves where you use the shorter back lines.

2. A shuttle which touches and passes over the net is in play
(Including the serve)

3. Faults Include:

- (a) The shuttle fails to pass over the net or lands outside the boundary line.

- (b) The shuttle contacts the walls, ceiling, player or player's clothes.
- (c) The shuttle passes through or under the net.
- (d) The player touches the net.
- (e) The player reaches across the net to contact the shuttle (following through across the net is allowed).
- (f) The shuttle is hit more than once or comes to rest or is momentarily caught on the racquet and thrown.
- (g) The player obstructs an opponent or invades the opponent's court.
- (h) A player is hit by the shuttle whether the player is standing inside or outside the court boundaries.
- (i) It is illegal for a player to hold up his/her racquet to block a return at the net. However, he/she may hold it up to protect his/her face or if he/she is returning it from within the appropriate receiving court.

4. Any accidental hindrance is considered a "let" and there will be a re-serve.

For example, a player or shuttle from another game entering the court.

*SINGLES RULE:-

1. The serve should always be done underarm and below the server's waist.
2. At the start of the game, the score is (0-0). You cannot randomly choose your side as you wish.
3. At the beginning of the game and when the score is even, the server serves from the right service court. When it is odd, the server serves from the left court.
4. If the server wins a rally, the serving side scores a point and the same server serves again from the alternate service court.

5.If the receiving side wins a rally, the receiving side scores a point. The receiving side becomes the new serving side.

6.The players do not change their respective service courts until they win a point side is scoring.

*DOUBLES RULE:-

1. The serve should always be done underarm and below the server's waist.

2. At the start of the game, the score is (0-0). You cannot randomly choose your side as you wish.

3.At the beginning of the game and when the score is even, the server serves from the right service court. When it is odd, the server serves from the left court.

4.If the server wins a rally, the serving side scores a point and the same server serves again from the alternate service court.

5.If the receiving side wins a rally, the receiving side scores a point. The receiving side becomes the new serving side.

6.The players do not change their respective service courts until they win a point side is scoring.

7. In doubles, there are 2 players in a team who can serve. A rule of thumb is that a badminton game always starts from the right-hand side The order of server depends on the score odd or even.

8. For example, if both pairs have decided that you and your partner start the game with you delivering the first serve, the score is 0-0. Since 0 is an even number, you will serve from the right side.

SCORING IN DOUBLES:

.If the serving side wins, they score a point and the same server serves again from the alternate service court.

2.If the receiving side wins, the receiving side scores a point. The receiving side becomes the new serving side.

3. When both sides reach 20 all, the side which gains a 2-point lead first, wins that game. When both sides reach 29 all, the side scoring the 30th point, wins that game.

4.A point is awarded to the receiving side after a winning rally -the serving side changes to the receiving side.

5.Until their side wins a point when their side is serving, the players do not switch to their respective service courts.

If anyone disobeys the rules of badminton or disrespect the referee, he/she will get eliminated from the game.
